power table pcb transformers potted MSE

- * safety transformer satisfying EN 60742 (VDE 0551) / EN 61558-2-6 ($U_o < 50 V$)
- * construction in vacuum potted double chamber style
- * complete construction with UL-approved material
- * $U_o > 50 V$: insulation-transformer according EN 61558-2-4
- * one or two windings primary, until four windings secondary
- * extremely small magnetic perturbation field due to optimized core geometry and very good power efficiency
- * advantageous price / quality ratio
- * automated production yields highest reliability
- * special version on demand
- * optional: temperature fuse / PTC / fail-safe
- * EI 30: until 3,0 VA short circuit proof; from 3,2 VA with temperature-fuse under condition short circuit proof
